

BASCUR FAMILY - UPDATE

Dear Friends and Family:

How are you doing? How can we pray for you?

All of us at the Word of Life property are doing well. Although many of our activities had to be cancelled, we have been asking God for wisdom to find new ways to minister to others during this hard time we are facing around the world. We are currently in voluntary quarantine in our area, but there are other areas in Santiago where mandatory quarantine has taken place already.

Early March, before the COVID-19 affected our country, we were able to have a week long evangelistic outreach with the help of a group of students from the Bilingual Bible Program of Word of Life Bible Institute in Argentina. We were able to visit churches, schools, orphanages, and serve the community. This through cultural exchange experiences, sporting activities and the preaching

of the gospel. The Lord allowed us to reach 1.450 people of which 150 of them manifested trusting Christ as Savior.

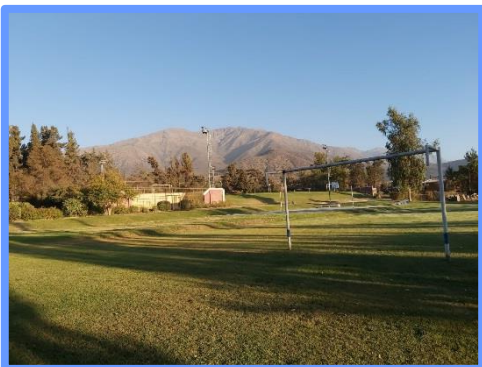

BASCUR FAMILY - UPDATE

On March 14th, in our property, we had the kickoff of our Local Church Ministries. Gathering 450 teens that represented the 19 churches that work with us and which we assist their youth groups.

Due to the spread of the virus in Chile, which to date we have 8.273 cases of corona virus, we have had to find new ways to continue to serve. We have been working on the maintenance of the property. We have been doing some landscaping as well as carpentry work.

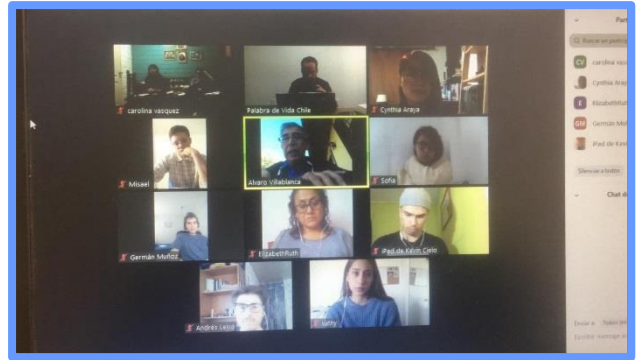

BASCUR FAMILY - UPDATE

The Center of Evangelism and Discipleship program has also transitioned into an online class format since they cannot study on our campus, as it was originally intended.

We praise God because we have 13 students that are wanting to learn more about the Bible and get further training to serve more effectively in their churches.

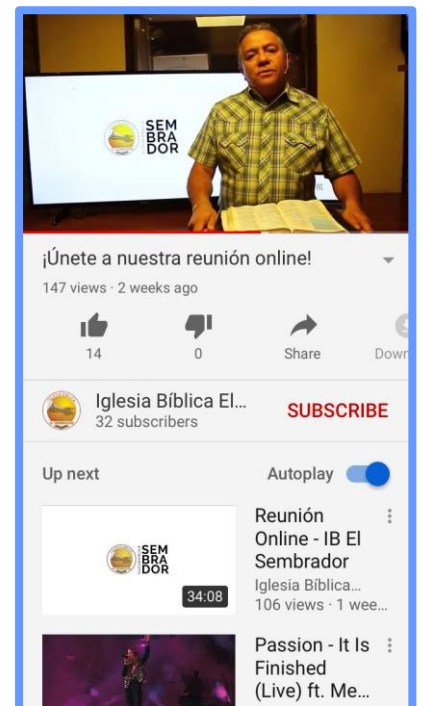

Alongside my wife, during this tough times, we have been able to take more time to assist the needs of the missionary families at Word of Life Chile and to perform the administrative tasks that involves our new position.

Each week our home turns into a "home recording studio", from which we record the youth group and Sunday services for our local church.

BASCUR FAMILY - UPDATE

The missionaries from Word of Life Chile are making themselves available to record and assist the local churches and their youth groups through online preaching and discipleship

We ask for your prayers:

1. For God's protection over our family. In Chile we are about to get into the critical contagion period.
2. Please pray for wisdom and peace for our family during the uncertainty we are facing regarding both of our daughter's weddings. Both of their weddings have had to be postponed and we are unable to reschedule them yet because of COVID-19 and other factors like Keila's Visa acceptance.
3. Also pray for wisdom to be able to reach Chilean people that are in need or will be in great need by the end of this pandemic. We have some ideas to be able to do so. For example, we would love to celebrate the end of the pandemic and quarantine period by opening our facilities for the community. Providing them with a recreational day and giving them boxes of non-perishable food. In order to do so, we will need to partner with other churches and brothers and sisters in Christ that would like to be part of this project by praying and giving. Please be praying for this idea as it turns into a project since it could be an amazing opportunity to share the gospel.

Thank you again for your concern and monthly support.

It is a great blessing for us.

God Bless you,

Marco, Ingrid, Keila y Dámaris.

Psalms 48:14
